

Brent Hoskins

Full-Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Software Engineer skilled at developing complex solutions, possessing strong creative thinking skills, high energy, and integrity. I am dedicated to constantly improving tools and infrastructure to maximize productivity, minimize system downtime, and quickly respond to the changing needs of the business.

EXPERIENCE

Three29, Sacramento — Full-Stack Developer

May 2019 - PRESENT

- Develop complex WordPress solutions for back-end and front-end development to establish and guide website architecture and functionality.
- Extensive work experience as a Front - End Developer.
- Took initiative in learning React Native and went on to successfully develop various apps under minimal supervision.
- Developed React Native toolkit that decreased app development by roughly 20%.
- Created company-wide React Native coding policy and procedures.
- Worked as part of a remote team, using GitHub to allow us to implement features while keeping the master in a passing tests state.
- Involved in integrating UI with API and loading data using REST API.

Spectrum Services Group, California National Guard, Sacramento — SharePoint Front-End

November 2016 - May 2019

- SharePoint content Manager supporting over 500 users.
- Customized and configured site pages using HTML, CSS, and JavaScript to target content to specific user's needs.
- Created training material for users to understand how to use SP2013 functionality and features.
- Designed SharePoint master page and page layouts, serving as the company's main SharePoint support for all technical complications.

NATO (The North Atlantic Treaty Organization), Pristina, Kosovo — Web Developer/Security Manager

November 2018 - MONTH 2018

- Utilized programming capabilities in Python, Django PostgreSQL and JavaScript, and other libraries as needed creating mobile-friendly websites.
- Developed web-based application using RESTful API and LDAP to create user account management system.
- Collaborated with clients from concept through final delivery of product or service.
- Provided continued maintenance and development of bug fixes and patch sets for existing web applications.
